## REPORT OF SEALER OF WEIGHTS AND MEASURES.

Middleborough, Mass., January 1, 1912.

*To the Selectmen of Middleborough:*

*Gentlemen:-*

I have the honor of making the following report as Sealer of Weights and Measures for the year 1911.

I have added to the equipment of the past year a portable drill at a cost of three dollars, making the assets of the department, including those furnished by the State and in the custody of the Town Treasurer, total, \$601.69.

The new law relating to the marking of milk bottles used in the distribution of milk has abolished all fees, therefore as a consequence I have not collected as large amount of fees the past year as usual.

Now I wish to say a word regarding this matter of fees. Many municipalities have abolished the fee system and there are many reasons for doing so. First, it does not seem right that a merchant should pay for being honest. Second, it causes the merchant to be less prompt in producing his articles on the visit of the Sealer and to treat the Sealer with less courtesy than would be the case if there were no fees to collect. Third, the majority of merchants have no knowledge of the fees established by law and consequently lay themselves open to the overcharging of a dishonest Sealer. Fourth, correct weights and measures are a direct benefit to the public and tax payers and as the laws of this State are now sufficiently strong against giving false weights and measures it seems nothing but fairness that the fees in Middleborough should be abolished.

During the past year I have sealed or condemned the following articles.

	Sealed	Condemned
Portable platform scales	71	2
Spring balances	42	1
Balances	45	0

Steelyards	6	0
Computing Scales	26	1
Wagon Scales	2	0
Railroad Scales	2	0
Wet measures	76	0
Dry measures	58	0
Yard measures	22	5
Weights	396	5
Milk bottles	774	0
Cranberry barrels	3034	0

I have weighed three loads of coal and have visited 20 stores, and made one prosecution. I have paid from my private purse for car fare and small sundries the sum of \$13.10.

I have collected in fees and turned into the Town Treasury the sum of \$60.21.

Respectfully submitted,

EDGAR D. WOOD,

*Sealer of Weights and Measures.*

## TREE WARDEN'S REPORT.

*From January 1, 1911 to January 1, 1912.*

Owing to ample funds to carry on the spraying and trimming work, the past year has proven a very satisfactory one.

In all we sprayed about 1500 trees. Most of our trimming was done in the village, removing four dead trees and trimming a great many live ones. In North Middleboro we removed three live trees.

I wish to thank all who assisted me the past year. Following is an account of receipts and expenditures:

Appropriation	\$1,200 00	
Received	32 00	
	<hr/>	\$1,232 00
Expenditures.		
Pay rolls	650 59	
A. G. Hayes, pipe and labor	2 79	
Leonard & Sampson, liability ins.	7 50	
A. E. Duffany & Son, blacksmith work	5 55	
Manufacturers Dist. Co., engine oil	4 25	
Henry D. Smith, spraying poison	183 40	
George H. Place, horse hire	40 50	
Middleboro Auto Exchange, labor and batteries	12 75	
George E. Doane, supplies	63 27	
Lloyd Perkins, repairs on sprayer	1 58	
A. R. Dunham, board of horse	4 00	
James Morrissey, horse hire	18 75	
Chas. H. Tribou, gasoline, cans, and tunnels	8 40	
T. W. Peirce Co., hose	5 35	
Middleboro Highway Dept., removing tree	4 50	
L. S. Bailey, salary	111 00	
	<hr/>	\$1,124 18
Balance January 1, 1912		<hr/> \$107 82

## Valuation of property:

1 gas engine	140 00	
Ladders	45 00	
Arsenate of Lead	56 00	
Rope and tools	20 00	
1 hand pump	15 00	
	<hr/>	\$266 00

Respectfully submitted,

L. S. BAILEY,

*Tree Warden.*

## REPORT OF THE BOARD OF HEALTH

*For the Year ending December 31, 1911.*

## CONTAGIOUS DISEASE.

During the year we have had reported to us five cases of diptheria, fourteen of scarlet fever, seven of vericella, four of whooping cough, two of tuberculosis, eleven of measles, one of typhoid fever, one of anterior poliomyelitis, three of ophthalmia neonatorum, and one of cerebro-spinal meningitis.

## GARBAGE.

By an arrangement with the Highway department the garbage has been collected twice each month and back yards and cellars have been kept much cleaner than heretofore. The Highway department has also handled the soil cart and what profit there was has been given to the town instead of to a private individual.

## RECEIPTS.

Appropriation	\$1,500 00	
Licenses	17 00	
	<hr/>	\$1,517 00
Overdrawn 1910		29 44

Reports of the Inspector of Dressed Meats and Milk are hereto appended.

Respectfully submitted,

J. H. WHEELER,  
 THOMAS S. HODGSON, M. D.  
 B. J. ALLAN,

*Board of Health.*

## INSPECTION OF DRESSED MEATS.

*To Board of Health Middleboro:*

I hereby submit my report as Inspector of Dressed Meat for year ending December 31, 1911.

Number of Pigs killed	584
Number of Veals	211
Number of Beefs	122
Number of Sheep	3
Condemmed 11 Pigs and 3 Beefs.	

There are eight licensed slaughter houses.

J. H. WHEELER,

*Inspector of Dressed Beef.*

## INSPECTION OF MILK.

I have visited all farms and dairies keeping over two cows for the purpose of furnishing milk for the Town of Middleboro. In a great many cases I found milk being handled and strained in the barns where cattle were kept. In such cases milk houses were ordered constructed with proper screening and barns ordered cleansed and whitewashed.

Proprietors seemed willing and anxious to comply with the law, and I found on a later inspection that all improvements ordered and suggestions made had been followed.

A number of samples were taken from dealers and sent to the Brockton City Chemist for analysis. His report indicates that the quality in most cases is above the average sold in towns of this size and larger in the State.

There are fifty licensed Milk dealers.

J. H. WHEELER,

*Inspector of Milk.*

## REPORT OF FOREST WARDEN.

The year 1911 was one of the worst years in respect to damage done by forest fires that the town has experienced for many years.

We had our usual quota of fires caused by sparks from locomotives, with more damage than usual; one house and one mill were consumed by the flames in addition to the damage to the woodland.

Outside of the "Railroad" fires, three bad fires, on Thompson, Purchase and Thomas streets, all probably set by smokers throwing down a lighted match, burned over territory never burned over before in the memory of the present generation, causing estimated damage of six thousand dollars.

I again wish to call attention to the carelessness of the "Bravas", two of the worst outside fires evidently caused by them while picking huckleberries and recommend that all woodland owners take advantage of the trespass laws and keep them out of their lands at all times.

My Deputies were the same as in 1910, William H. Connor taking the place of John C. Chase as Superintendent of Streets.

I have approved the following bills.

Walter T. Bryant	\$194	40	
Levi O. Atwood	134	40	
David S. Surrey	158	80	
Josiah H. Thomas	127	50	
Gardner Thomas	156	10	
Myron R. Sturgess	26	30	
Seneca T. Weston	11	00	
A. J. Bailey	28	25	
Town of Middleborough, Highway			
Department	110	67	
Chester E. Weston	145	89	\$1,093 31

In view of the fact that the town some years ago voted to pay twenty cents an hour for fighting forest fires and that at the present time the average man who fights fire gets

more an hour in his daily calling, I advocate the town raising the wage per hour for forest fire fighting to thirty cents, which is nearer the wage paid by other towns of similar size to ours.

I wish to thank my deputies for their assistance as well as the citizens of the town who cheerfully comply with the laws.

My report to the State Forester of the estimated damage to property for the year was \$13,520.

Respectfully submitted,

CHESTER E. WESTON

*Forest Warden.*

Middleborough, Mass., January 31, 1912.

## REPORT OF DEPARTMENT FOR SUPPRESSION OF GYPSY AND BROWN-TAIL MOTHS.

*Mr. Chairman and Members of Board of Selectmen:-*

*Gentlemen:-*

With the co-operation of your board, the State Foresters Office, and Division Superintendent L. W. Hodgkins of the State force we have been able to establish a Department equipped with all the necessary tools and a 400 gallon Fitzhenry-Guptill spraying machine with suitable quarters in basement of Town Hall for which I wish to express my thanks.

In scouting the Town the past year we have found a general infestation throughout the whole Town, with conditions extremely bad in the southerly section where we have an area covering about 1200 acres of woodland bounded by Carver line, Pine, State Road, Old Wareham and Rocky Gutter Sts. where there are millions of Gypsy moth nests and although we planted a disease called Flacherie which creates the Caterpillar Cholera and destroyed millions of Gypsy caterpillars there were at least 50 acres of trees completely stripped of their foliage during the month of July 1911.

Jan. 1, 1911, we had 147 known Gypsy colonies. We now have the following colonies with two-thirds of the Town to scout during 1912

Street tree colonies	29
Orchard colonies	360
Woodland colonies	118
	<hr/>
Total	507
Trees burlapped	34,748
Gypsy moth nests found and destroyed with creosote oil	15,825
Gypsy moth Caterpillars found and destroyed under burlaps	18,755
Brown Tail webs found and destroyed by burning	93,138

Acres sprayed with Arsenate of lead solution	90
Pounds of Arsenate of lead used	4720
Gallons of Arsenate of lead solution used	40,300
Orchards cleaned	53
Acres of woodland known to be infested with Gypsy moths, about	2,000
Average number of men employed	10
No work done during months of August and September.	
Cash received by Town Appropriation	1,859 92
Cash received from work done on private property	719 55
Cash received from State Funds	1,654 42
Cash received from Peirce Estate Trustees	550 00
Cash received from Frank L. White	25
Cash received from State funds for December pay-roll	520 28
Total	\$5,304 42
Cash expended	5,304 42

A Gypsy moth colony is one or more nests found on a piece of property.

One Gypsy moth nest contains from 500 to 800 eggs.

A Brown-Tail web contains from 200 to 250 caterpillars.

Orchard cleaning is cutting out worthless trees, cutting dead wood from trees to be saved, scraping off loose bark. zinc patching holes in trees and burning brush. This work is done only on property where Gypsy moth nests are found. The object of this work is to dispose of all breeding places so far as possible.

The owners of woodland and cranberry bogs in this Town do not realize the serious problem they are facing on this Gypsy moth question. It takes but one year of complete defoliation to kill a pine tree and from three to four successive strippings of the foliage to kill any other trees in the State of Massachusetts. We are not doing any work on the wood lands on account of not having sufficient funds to work with. The conditions are slowly but surely getting worse and I would recommend that an additional appropriation of \$2,000 be made at the next annual Town meeting for the Suppression of the Gypsy moths in your wood lands.

Yours respectfully,

FRANK L. WHITE,

*Local Superintendent of Moth Work.*

## REPORT OF CHIEF OF POLICE.

*To the Honorable Board of Selectmen:*

Gentlemen:

I have the honor to submit the third annual report of the Police Department for the year ending December 31, 1911.

## BUSINESS OF THE DEPARTMENT.

Total number of arrests	204
Males	198
Females	6
Arrests for other towns	5
Liquor raids	7
Raids for stolen property	3
Stolen property reported	\$2,956
Stolen property recovered	1,846
Fines imposed	1,167
Fines paid	1,037
House of Correction	13
State Farm	4
Concord Reformatory	2
Sherborn Reformatory for women	1
Shirley Industrial School	1
Drunks released	53
Cases appealed	2
Probation	2
Complaints dismissed	5
Cases filed	21

Outside Poor, 31 families of 76 per- sons	2,578 32	
Residing here, with settlements else- where, 17 families of 51 persons	486 66	
Residing elsewhere with settlements here, 18 families of 64 persons	1,084 61	
	<hr/>	\$10,044 09

## EXPENSE ACCOUNT.

Expense of Overseers, out of town	\$64 13	
Telephone, stationery, postage, etc.	60 03	
Insurance	360 00	
Expenses incidental to burial of Geo. Stowers, for which we expect to be reimbursed	49 00	
	<hr/>	\$533 16
		<hr/>
		\$10,577 25
		<hr/>
Balance on hand, Jan. 1st., 1912		\$486 22

Number of inmates at Farm, Jan. 1st, 1911	9
Number admitted during the year	5
Number discharged or removed during the year	2
Number died during the year	2
Number remaining Jan. 1st, 1912	10

## VALUATION.

90 acre farm and buildings	\$21,000 00
3 wood lots, (51 acres)	950 00
Live stock including 2 horses, 13 cows, 1 bull, 2 heifers and 1 calf, 13 pigs and 70 fowl	1,068 00
Hay and produce	1,140 55
Groceries	45 00
Furniture etc.	961 20
Implements and Tools	421 50
Wagons	260 00
Dressing, coal, wood and lumber	289 00
	<hr/>
	\$26,135 25

The following is a partial list of Produce raised at the Farm the past year; part of which has been sold and the remainder being used at the Farm.

Hay, 30 tons  
 Corn Fodder, 16 tons  
 Rye straw, 1½ tons  
 Corn, 700 bushels  
 Mangles, 130 bushels  
 Turnips, 108 bushels  
 Potatoes, 129 bushels  
 Beets, 6 bushels  
 Carrots, 19 bushels  
 Onions, 5 bushels  
 Beans, 11 bushels

About 500 dozen eggs, the larger part being used in the house, about 7928 gallons of milk were produced. The house being well supplied and over \$1,400 worth sold.

Although the receipts from the farm for the past year exceeded any year in its history, yet they would have been considerable larger had it not been for the excessively dry summer which caused a shortage in all the crops; and the expenditure of quite a sum in the purchase of a manure

spreader which does the work much better in much less time than by the old method of hand spreading, and also in exchanging our old cows for younger stock, with the addition of 1 cow and 2 heifers. We now have almost an entire young herd of good milkers. But for the above items we believe that the farm would have more than paid its running expenses beside furnishing all the milk, eggs, pork and vegetables to the inmates of the house, and we are satisfied that the farm and the house inmates are well managed and well cared for.

The Expense Account is noticeably large this year owing principally to the renewal of all the insurance policies, which of course will not occur again for a number of years.

Through the efforts largely of Rev. N. McKinnon, we were able to secure a special appropriation of \$500 from the town for the purpose of installing electric lights in both house and stable. The expense was a trifle in excess of the appropriation and has been satisfactorily adjusted through an outside source. The lights have not been in use long enough to form a fair monthly average, but we do not think it will be very much in excess of the old method of lighting by kerosene.

We are very much pleased with the lighting, it being much more convenient and a greater degree of safety which is worth something.

If any of our Townspeople would like to see how the house looks when well lighted, we would invite them to call there some evening and we assure them that the Supt. Mr. Pushee would be pleased to illuminate at their expense.

Respectfully submitted

CHARLES W. KINGMAN,  
CHARLES M. THATCHER,  
EDWIN F. WITHAM.

*Overseers of the Poor.*

## MIDDLEBORO PUBLIC LIBRARY.

Middleborough, Mass., January 1, 1912.

*To the President and Trustees, Middleborough Public Library.*

Gentlemen:

I herewith enclose the report of the Librarian for the year 1911. No formal report by the Secretary seems necessary, as the report of the Librarian fully covers the working history of the Library for the past year.

Yours very truly,

E. S. HATHAWAY,

*Secretary.*

EDWARD S. HATHAWAY,

*Treasurer.*

*To the President and Board of Trustees of the Middelboro Public Library:*

I herewith submit the annual report of the Middleboro Public Library for the year 1911.

### ACCESSIONS.

980 new volumes have been placed in the library this year, 898 by purchase, 33 by gift, and 49 by bound periodicals. The number in the various classes as given in the quarterly bulletins are as follows:

General Works	73
Philosophy	30
Religion	34
Sociology	51
Science	52
Useful Arts	60
Fine Arts	54
Literature	53
History	47
Description and Travel	76
Biography	70
Fiction	197
Young Peoples' Books	181

A new Encyclopedia Britannica, Edition 11, in 29 volumes has been added to the reference room.

### BINDING.

Number of books bound	396
Number of periodicals	49
	<hr/>
	445

### CIRCULATION

The library has been open to the public 304 days. April 1st, a beginning of a twelve hour day was made from 9 A. M. to 9 P. M. This has been found a convenience to many, the month's circulation increasing by several hundreds over the previous year. The hours from 12 to 2 especially are among the busiest of the day, the school children from the suburban districts and those working in the shops coming at that time. The total circulation for the year was 52,083 Adult department 36,206; Young Peoples' 15,877. The average daily circulation was 171 volumes.

## GIFTS.

The following have been presented to the library.

Justice to the Jew, presented by Leo Kohns.

Vital records of several towns in Massachusetts, from Secretary of State.

250th Anniversary of Old Bridgewater, presented by Executive Committee.

Christendom astray, presented by author.

Cupid intelligent, presented by author.

Rural vs. urban, presented by author.

After prison, what? by Mrs. Booth, presented by Mrs. Q. A. Shaw.

Little mother stories, by Mrs. Booth, presented by Mrs. Q. A. Shaw.

Dangers of municipal trading, presented by author.

Fundamentals in education, art and civics, presented by author.

Besides these many volumes of reports have been received as gifts, also several magazines.

## PICTURE EXHIBITS.

Pictures from the Library Art Club have been received as usual, and the room given last year to the exhibition of school work is still being used for that purpose. These exhibits were all changed in the summer.

## REGISTRATION.

364 persons have received new cards this year, 209 adults, 155 children under fifteen. A good proportion of these children are under ten, the former age limit.

Respectfully submitted,

ALICE M. ALDEN,

*Librarian.*

## REPORT OF THE TOWN CLERK.

The following is an abstract of the records of the Town Meetings held during the year 1911.

Annual Town Meeting, March 6, 1911.

The Meeting was called to order by the Moderator at eight o'clock in the forenoon and the Town Warrant was read, omitting the articles which were printed in the Town Report and distributed at the meeting.

Voted—That meeting adjourn until half past eleven o'clock.

When the meeting was again called to order by the Moderator promptly at half past eleven it was voted under Article I of the Warrant to proceed immediately to the election of Town Officers for the ensuing year and that the polls be closed not earlier than 5.30 o'clock in the afternoon. Business was duly suspended to prepare the room for voting and the following were sworn in as Election Officers.

James F. Roberts,  
Michael J. Baker,  
Charles L. Starkey,  
Chester E. Weston,  
Walter L. Beals,  
Charles W. Kingman,  
Charles M. Thatcher,

William J. Coughlin,  
Michael J. Cronan,  
Edgar D. Wood,  
Henry W. Sears,  
Elisha T. P. Jenks,  
Robert Nolan,  
John J. Mahoney.

The polls closed at 8.45 o'clock p. m. and the result of the voting was as follows:—

### FOR MODERATOR.

Alvin C. Howes had	510

## LICENSE VOTE.

No had	536
Yes had	275
Blanks	117

Voted—That David S. Surrey, Herbert S. Sylvester and Kenelm Winslow be elected as a Committee on Suppression of Crime and that the sum of Four Hundred Dollars be appropriated for their use.

Voted—That the sum of One Hundred Dollars be appropriated for Band Concerts during the current year.

Voted—To adjourn to Monday Evening, March 20, 1911 at Seven o'clock.

Adjourned Town Meeting, March 20, 1911.

Meeting called to order by Moderator Howes at 7.05 p. m.

Voted—That the Selectmen be authorized to draw an order for the sum of One Hundred Dollars, the amount appropriated for Band Concerts, to the Treasurer of the Middleboro Band.

Voted—That moneys received from dog licenses and other licenses be appropriated for the use of the Middleboro Public Library.

Voted—That a Committee of three be appointed by this meeting, and that they be and are hereby authorized to examine the accounts, books, records, papers and vouchers in the Town Treasurer's Office for a period of ten years preceding the assumption of the duties of the position by Albert A. Thomas, and as far previously thereto as they may deem expedient, to investigate and explain a discrepancy of over ten thousand dollars between the ledger balance and the aggregate of Notes and Bonds outstanding against the Town, that they make their report in writing at the meeting to which this meeting shall adjourn or as soon thereafter as possible, and that they be authorized to expend for the services of an accountant to assist them in the discharge of their duties a sum not exceeding two hundred dollars.

The following Committee was duly appointed:-George Fox Tucker, Walter L. Beals and Elmer E. Phinney.

Voted—That George W. Stetson, Chester E. Weston, Augustus Pratt, Levi O. Atwood and Albert A. Thomas be elected a committee on appropriations and that they be empowered to fill the vacancy caused by the ineligibility of Granville E. Tillson.

Voted—That the sum of two hundred dollars be appropriated for the use of Post 8, G. A. R. on Memorial Day and that the same be paid to the Quartermaster of the Post.

Voted—That the Chief of Police be authorized to appoint one night watchman in addition to the one man now employed.

Voted—That the Town extend the electric lighting wires to the Town Farm and install electric lights in the buildings thereon and that the sum of five hundred dollars be appropriated to cover the expenses of same.

Voted—That the following report read by William M. Haskins be accepted.

Your Committee appointed at the last Annual Town Meeting to investigate and report an equitable system for sewer assessments have attended to their duty and respectfully submit the following report.

In considering the matter, our judgment is that an equitable

method of assessment is an annual rental based on the amount of water used.

As the understanding of the abutters on the present system is that the twenty-five dollars entrance fee paid should cover the whole expense to them, we do not feel that the time has yet arrived to recommend any change, but when our system is enlarged we would recommend in addition to an annual rental fee an assessment on abutters.

Respectfully submitted,

WILLIAM M. HASKINS,  
BERT J. ALLAN.

*Committee.*

Voted—That Henry W. Sears, Cornelius H. Leonard and Chester E. Weston be appointed a Committee to investigate the proposition to install a new gas plant and appropriate money for same, said committee to report at an adjourned meeting and that in addition to the three men named the Moderator appoint three additional members to serve on said committee. The Moderator appointed as additional members Augustus M. Bearse, Samuel Shaw and Henry B. Schlueter.

Voted—To adjourn to Monday evening, April 3, 1911 at 7.00 o'clock.

Adjourned Town Meeting April 3, 1911.

Voted—That the Town Treasurer, with the approval of the Board of Selectmen, or a majority thereof, be and hereby is authorized to borrow money from time to time in anticipation of taxes of the present municipal year to an amount not exceeding in the aggregate the sum of eighty-five thousand dollars, and to issue notes or a note therefor payable within one year, and any debt or debts incurred under this vote to be paid from the taxes of the present municipal year.

Voted—The following appropriations for the current year:

Support of Schools:—

Instruction (including \$671.43 above  
minimum requirements recom-  
mended as an increase in the pay  
of teachers of the larger suburban  
schools) current expenses and Super-  
intendent's Salary

\$32,000.00

Transportation	1,750 00
Repairs	1,000 00
Salary of School Committee	150 00
	<hr/>
	\$34,900 00
Support of Poor (including Salaries)	6,500 00
Soldiers' Relief	2,300 00
Military Aid	550 00
Town Officers (Overdraft \$226.47, Town Clerk Treasurer & Collector \$1,200.00, Selectmen \$800.00, Assessors \$1,150.00, Registrars and Election and Caucus Officers \$500.00, Moderator \$20.00, Auditor, \$200.00, Inspector of Animals \$200.00)	4,296 47
Town Officers Expenses (Clerk for Town Clerk and Treasurer and Selectmen \$450.00, Assessor's Expenses, including horse hire, clerical help and miscellaneous, \$750.00, Department of Sealer of Weights and Measures \$200.00, Expenses of Registrars and Election and Caucus Officers \$250.00)	1,650 00
Incidentals	2,000 00
Water Supply	1,500 00
Town Debt, (Sewer Note due Nov, 1 1911, \$5,000.00, School House loans due Nov. 1, 1911, \$2,300.00)	7,300 00
Interest	3,700 00
Middleboro Gas & Electric Plant—	
Estimated operating expenses for 1911	\$18,000 00
Interest required	2,708 00
Notes due Nov. 1, 1911	3,000 00
Depreciation (4% of cost of Plant as authorized by special vote of the State Board of Commissioners)	5,637 10
	<hr/>
Total	\$29,345 10
Less estimated income	19,995 10
	<hr/>
Balance to be appropriated	\$9,350 00
Suburban Lighting	400 00

Office Rent	150 00	
Commissioner's Salaries	300 00	10,200 00
Board of Health (Including Inspection of plumbing and dressed meats)		1,500 00
Highway Department—		
Superintendent's Salary and transportation of men	1,500 00	
Clearing snow, general repairs and street cleaning in addition to receipts from other sources	2,500 00	
Repairs for outside districts	6,000 00	
Sidewalks	1,000 00	11,000 00
Police Department—		
(Chief \$1,000.00, Two watchmen \$900.00 and \$850.00, Expenses \$400.00)		3,150 00
Sprinkling Streets, equal amount to be assessed on abutters		600 00
Tree Warden's Department(Including Salary)		1,200 00
Destruction of Gypsy and Brown Tail Moths		1,857 92
Amount due on State Highway Contract of 1903		3,377 58

Voted—That the sum of \$1,000.00 be charged the Taunton Law Suit account and credited incidentals to make good the overdraft in the incidental account as of January 1, 1911.

Voted—That the \$500.00 appropriated at the last meeting to install electric lights at the Town Farm be expended under the direction and on orders of the Overseers of the Poor.

Voted—On the reading by Walter L. Beals of the report of the committee to examine the books of the Town Treasurer previous to July 1, 1910, that the report be referred back to the committee with instructions to add to their report a resolution stating that the funds of the Town were left intact by the late Town Treasurer and that Mr. G. E. Tillson be added to the committee.

The following report was read by Mr. Chester E. Weston for the Committee appointed to investigate regarding installing a new gas plant.

Your committee have attended to their duties and beg leave to submit the following report.

We first obtained the approximate cost of taking our pre-

sent gas house and machinery and put it in shape for making water gas. We have a bid from the Davis & Farnum Manufacturing Company, of Waltham Mass., to install a new and up-to-date water gas set, using our present gasometer and a small portion of the machinery now at the plant with a fifty thousand cubic foot holder exclusive of foundations for \$11,168.00. It is estimated that the foundations and minor repairs to be made by the Town will not exceed \$1,832.00 making the cost of putting the present gas plant in a position to put out one hundred and twenty-five thousand cubic feet of water gas per day at about \$13,000.00. A new eight inch gas main from the gas house to the four corners would cost three thousand dollars.

We are informed that we can make and put gas in the holder on an output of seven million cubic feet of gas per year for fifty cents per one thousand cubic feet and that we should be able to distribute it to the consumer for an additional fifty cents.

The trustees under the will of Thomas S. Pierce informed us that they, in case the Town desired it, would make this expenditure of \$16,000.00 this year from the income of the fund and that they will each year put in a substantial sum from the income until there shall been have laid new pipes to all possible consumers of gas to whom it is a business proposition to lay pipes.

We have been approached by the officials of the Taunton Gas Light Company of Taunton, Mass., who have made us a proposition which is as follows:-

Chester E. Weston, Esq.,  
Secretary of Special Gas Committee,  
Middleborough, Massachusetts.

Dear Sir:-

Your communication of March 28th relative to prices at which our Company might supply Middleborough with gas has been considered by our board of directors.

In answer to your first inquiry I am authorized to say that our directors recommend that we supply the consumers of Middleborough with gas at a price not to exceed one dollar and a half per thousand cubic feet, less ten cents per thousand for prompt payment, making the net price one dollar and forty cents (\$1.40) per thousand cubic feet:- provided the Town of Middleborough grants us a franchise

similar to that under which we operate in Taunton, Dighton and Berkley.

Without at this time giving a direct answer to your second and third inquiries we do not recommend supplying gas at your holder or at your town line, owing to the necessity of a long term contract at prices that seem to us prohibitive.

Very truly yours,

WALTER T. SOPER,

*Treasurer.*

---

In view of the fact that we had the above propositions, we thought best to appear before the State Gas & Electric Light Commissioners and ask them to recommend to us a practical gas man, one who had made a success in the business and had no ax to grind. The Commissioners recommended Charles F. Pritchard, Superintendent of the Lynn and Brockton Gas Light Companies. Both private corporations. Mr. Pritchard made us a visit, looked over our plant, talked over the two propositions and then wrote us a letter which we submit in full.

March 31, 1911.

Mr. Henry W. Sears,  
Chairman Lighting Committee,  
Middleborough, Massachusetts.

Dear Sir:-

As a result of my inspection of your plant and proposed enlargement, and conference with your committee, I beg to say that I find the location of your plant a suitable one, the plant in extremely poor condition, the buildings in fair condition and the street mains, so far as I could gather information, in rather poor condition.

The plan proposed by the Davis and Farnum Manufacturing Company for the installation of a small water gas plant with holder and other appliances at the price named in the bid, appears to me to be suitable, of sufficient size and reasonable in cost. It will be necessary to spend at the plant for foundations, connections etc., not furnished, as I understand it, by the contractor, the sum approximately \$1,500.00

additional. It is also estimated that \$3,000.00 will have to be spent to lay a suitable, larger main from the works to the square, a center of distribution.

There are now installed something over 150 meters and about three miles of pipe. To supply the 5,500 people located in the so called "Fire District" it will be necessary, I am informed, to cover 10 miles of street, and it seems probable that little if any of the pipe now installed should be retained if good service is desired.

Assuming that there are 500 customers to be secured, it will be necessary to spend on improvements at plant, street mains and the necessary work in laying services, installing meters and obtaining such additional customers, not less than \$50,000.00.

The volume of business to be secured depends entirely upon the character of service, the selling price of the gas, and the ability with which the business is pushed.

Although the sales of gas are now but about one million cubic feet per annum, it ought to be easy to secure a sale of six million cubic feet per annum with the expenditures above named.

This gas, if the plant is operated carefully and with the minimum of labor in plant, office and distribution, allowing a fair leakage and reasonable repairs, should be manufactured and distributed for about \$1.05 per 1,000 cubic feet, allowing nothing for interest and depreciation.

Five per cent on the investment of \$50,000.00 or \$2,500.00, if allowed for a fair and reasonable return on the money invested, would add to the cost 42 cents, a total of \$1.47, or, as we say in round figures, \$1.50 per thousand.

If the business was increased to ten million cubic feet per annum, and an allowance of five per cent on the investment of \$50,000.00 amounting to 25 cents per 1,000 be made for interest, the gas could be delivered to the consumer for approximately \$1.25 per 1,000.

Your committee will understand, as explained in our interview, that these costs depend upon amount of business; costs of material, energy devoted to minimize cost of production, and many varying elements of costs, and these figures are based upon data given me by the Committee and Manager, and the expectation that the plant and business will be handled in a first class manner, with no unusual costs for office, taxes, etc.

With these figures and the prices to be given you by that Taunton Company, before your Committee, it becomes a matter of individual opinion as to the wisdom of the town

engaging in a manufacturing business, and I would hesitate to express my opinion on the matter had it not been so specifically asked for.

Being directly asked to do so, I will say that were I one of the Committee I would not advise the Town to engage in a manufacturing business of an intricate and somewhat hazardous nature for the small, if any, apparent profit to be derived from it. I should expect it would be extremely difficult, if not impossible, for a municipality to so operate a gas business in a Town of the size of Middleborough as to reach a ten million cubic feet per annum of sales, in which case the price must be and remain higher than if a larger business was secured: and I should expect that a much larger organization like the Taunton Gas Company, by reason of its size, its knowledge of the business, its skilled employees, its personal interest and devotion to its business would furnish better and more reliable service and would at all sales per annum be able to undersell the Town plant to the direct benefit of those of the townspeople who decided to use gas; and I would believe that the interest on the fund at the disposal of the Town could be used to better advantage of the population as a whole.

I would not expect that the gas business, if operated by the Taunton Gas Light Company, would work to the detriment of your Electric Light Plant. I should rather expect it would result, through a kind of competition, in efforts to improve the Electric service and reduce the cost.

On the other hand I would fear that were the Gas Plant and property operated by the Town there might be the temptation to keep the selling price of Gas higher than it should be to the detriment of the people of the Town who desired to use gas, in the effort to protect the Electric Light Plant.

I do not think this would be at all necessary, for I believe there is sufficient demand for each kind of service if supplied at proper and reasonable rates and in a reliable manner.

Very truly yours,

CHAS. F. PRITCHARD.

---

There is one feature between the Gas made by the Taunton Gas Co., which is coal gas, and the water gas which the Town will make if it continues in the business, and that is the poisonous nature of the water gas, it containing twenty-

five per-cent carbonic acid against seven per cent carbonic acid in the coal gas making it of a more deadly nature.

Should the Taunton Gas Company secure a franchise and lay their pipes here very little of our present gas equipment will be of any use to them. So that the remainder will simply be old junk. The Taunton Gas Co. inform us that should our actions be favorable to them, they would start immediately to put their pipe over here from Taunton, but that they would not in all probability be able to give us gas before the first of August 1912.

The Company would also be taxed for their pipe lines which would add a little something to our valuation. On the other hand, must be taken into consideration the fact that the Taunton Gas Co. ask for a perpetual franchise for which the Town gets nothing except the benefit which the consumers of gas get in the rate quoted by the Company. There must also be taken into consideration the fact that we allow a competitor to come in and compete with our Electric Plant which we depend upon for lighting our streets and which depends largely for its income upon its lighting of public and private buildings.

The whole proposition seems to sum itself up as follows;—We can give the Taunton Gas Light Company a perpetual franchise, for which the consumer of gas will receive the price quoted in the Company's letter, namely \$1.40 per thousand cubic feet, net, introduce opposition to our present electric plant, possibly to the detriment of the inhabitants of Middleborough, or we can have our present plant revised so that at the end of ten years at the most we should receive our gas as cheap as the Taunton Gas Light Company could afford to sell it, without any direct cost to the tax payers of Middleborough.

The majority of your committee, therefore, recommend that a franchise be granted to the Taunton Gas Light Company in accordance with their proposition.

Respectfully submitted,

HENRY W. SEARS,  
 CORNELIUS H. LEONARD,  
 SAMUEL SHAW,  
 AUGUSTUS M. BEARSE,  
 HENRY B. SCHLUETER.

Voted—To lay the report on the table until the adjourned meeting.

Voted—That the selectmen confer with the Water Commissioners of the Fire District in determining the quantity and value of the water used by the Town, and that they be empowered to execute a contract on behalf of the Town for the water used for a term of five years beginning July 1, 1911.

Voted—That the Selectmen be authorized to institute, defend or compromise suits for or against the Town during the ensuing year.

Voted—That the sum of \$98,981.97 less the estimated corporation and bank tax and plus the county and state tax, be raised on the polls and estates of the town and that it be assessed, committed and collected in accordance with the statutes provided therefor and with the by-laws of the town.

Voted—To adjourn to Monday evening, April 10, 1911 at 7.00 p. m.

Adjourned Town Meeting, April 10, 1911.

Meeting called to order by Moderator Howes promptly at 7.00 o'clock p. m

Voted—That the following report of the Committee to investigate the books of the Town Treasurer previous to July 1, 1911 be accepted and the resolutions adopted.

The Committee appointed by the Town to investigate the books and accounts of the Town Treasurer, beg leave to submit, as their report, the following report of the American Audit Company and in addition thereto, as instructed by a vote of the town, the resolutions as indicated.

---

April 3, 1911.

Mr. George F. Tucker, Chairman,  
Investigating Committee,  
Town of Middleborough, Massachusetts.

Dear Sir:-

Pursuant to your instructions we have made an examination of the accounts and records of the late Town Treasurer, Amos Herrick Eaton, deceased, for the purpose of locating the cause of an adjusting entry made by the present Town Treasurer, Mr. A. A. Thomas, on July 1, 1911.

The entry is correct and was necessary owing to technical errors in the accounts of the late Treasurer. These errors

were not made with fraudulent intent but were book-keeping errors, by which the Town suffered no pecuniary loss. The system of accounting in use was "Double-entry" but to show the "Net Debt" and "Permanent Debt" of the Town, two accounts were opened in the ledger, "Appropriation" (Net debt), "Notes and Bonds" (Permanent Debt) and in no manner should the entries pertaining to these accounts be confused; yet on January 1, 1907 when the late Treasurer opened a new ledger, he did include the Temporary Loans in the "Notes and Bonds" account, whereas they should have appeared in the "Appropriation Account".

With these accounts in the ledger it was necessary to make a "Double-Double Entry" on all reductions of the permanent debt, this, however, was not done in every instance, and when the late Town Treasurer paid notes and bonds for which no appropriation was made, the amounts were not properly adjusted on his books.

The errors were of such a nature that they should have been detected by the Town Auditor during his examinations.

The following is the adjusting entry made on July 1, 1910 by Mr. A. A. Thomas.

Appropriation Account	\$13,750 00	
to Notes and Bonds		\$13,750 00

and in explanation thereof we submit that the Appropriation Account should have been charged with \$11,000.00 Temporary Loans on January 1, 1907 and which were included in error in the Notes and Bonds Account.

The Appropriation Account should be charged with \$750.00 being the amount of note paid during 1907 for which no appropriation was made. The Town voted at its annual meeting on March 4, 1907 to, pay one note of \$750.00 but the Treasurer did pay two notes of \$750.00 each, one on March 16, 1907, the other on October 29, 1907.

The Town at its annual meeting on March 1, 1909 voted to pay \$2,000.00 municipal lighting bonds. This amount was credited to "Notes and Bonds Account" and charged to "Appropriation Account". This entry was subsequently eliminated, but it should have remained as previously entered \$2,000.00.

Total, by the amount of the above adjustment \$13,750.00.

On the same date Mr. A. A. Thomas made an adjustment entry as follows:-

Municipal Light Plant	\$1,000 00	
to Notes and Bonds		\$1,000 00

In explanation thereof we submit that on November 1, 1909, the Treasurer paid \$3,000.00 Municipal Light Bonds, but the Town had at its annual meeting on March 1, 1909 voted only \$2,000.00, this necessitated the adjusting entry above referred to, as the amount appropriated at the next annual meeting was incorrectly credited to Municipal Light Plant.

We have not reason to expect that there are anything but technical errors in the books, but we suggest that a thorough audit of the accounts of the Town be made for a number of years to correctly determine whether the accounts showing the "Net" and "Gross" debt of the Town are correctly stated; for example on October 29, 1907 the Town History Loan of \$2500.00 was paid but it was not credited to Notes and Bonds Account until September 3, 1909.

We cannot criticize too severely the system of accounting during the administration of the late Treasurer and in use by the present Treasurer so far as it has been retained by him.

There are accounts on the Treasurer's books which do not pertain to his department and which causes considerable unnecessary work all of which should be eliminated by the substitution of proper accounts.

The Treasurer should only show a record of receipts and disbursements, classifying the disbursements according to orders drawn viz:- Selectmen, Light, Health, School, etc., irrespective of the appropriations to which they are to be charged.

We desire to express our appreciation of the courtesy extended to us during our examination.

Respectfully submitted,

THE AMERICAN AUDIT COMPANY.

---

#### Resolutions.

Whereas:—It should be made clear to the public that the vote of the Town to appoint a Committee to investigate certain technical book-keeping errors, conveys no hint of any improper action on the part of our late Town Treasurer, Amos H. Eaton; and

Whereas:—For many years Mr. Eaton filled important positions of public trust in this community, assuming constantly increasing burdens without complaint and always doing his work with a smiling face and cheerful spirit, though often under difficult conditions;—Therefore

Be it resolved by the voters of the Town of Middleborough in Town Meeting assembled;—That we recognize the fact of Mr. Eaton's ideal in life was to be of service to all with whom he was brought in contact; that private gain and personal advancement were always treated by him as matters of secondary importance, both in his public and his private life, and that the record for honesty and integrity which he left behind him is without blemish.

Respectfully Submitted,

GEORGE F. TUCKER,  
ELMER F. PHINNEY,  
WALTER L. BEALS,  
GRANVILLE E. TILLSON,

*Committee.*

The following report was read by William M. Haskins and was duly accepted and its recommendations adopted.

The Committee appointed to report on building a dam at Muttock would respectfully submit the following:—

A petition was presented to the Legislature this season asking for the building of a dam and improving the conditions at Muttock. The representatives of the Town who attended a hearing of the Legislative Committee on that petition represented that the Town would take some action during the coming season to improve the conditions. With that understanding the Legislature passed no decisive order, but referred the matter to the next Legislature. So with the idea in view of erecting a dam and raising the water on the flats, which seems to be conceded by everyone would remedy the conditions. The first objection your Committee found was that the Town had no rights to erect a dam or do any work on property which did not belong to them. After investigation, your committee found that the water privilege with the land could be bought at a reasonable price. Not wishing to burden the tax payer with an additional appropriation to meet this expense your Committee presented the matter to the Trustees of the Pierce Estate and they have kindly consented, if the Town so votes, to purchase this property for the Town and erect a structure which shall obstruct the flow of water and raise the water level. We,

therefore, recommend that the Town ask the Trustees of the Pierce Estate to purchase for the Town the water privilege and land adjoining at Muttock and erect a structure such as they consider advisable for the control of the water, paying for same from the income of the Estate.

WILLIAM M. HASKINS,  
 CORNELIUS H. LEONARD,  
 CHARLES N. ATWOOD,  
*Committee.*

---

Voted:—That the following be duly chosen measurers of wood, bark and lumber.

N. S. Cushing, Jr.	Frederick K. Robbins,
Gustavus G. Andrews,	James A. Thomas,
Harrison W. Atwood,	Albert F. Mitchell,
Charles N. Atwood,	Ephriam M. Gammons,
Charles N. Warren,	Nathaniel A. Shurtleff,
John L. Benson,	Chester E. Weston,
Albert S. Sparrow,	Benjamin C. Shaw,
Edwin F. Witham,	Curtis H. Dunham,
Henry W. Sears,	Albert T. Savery,
Isaac E. Perkins,	Joshua K. Bishop,
Charles A. Lee,	Frank S. Thomas,

Voted—That the following be duly elected Field Drivers.

Seneca T. Weston,	Albert T. Savery,
William F. Clark,	J. Herbert Cushing,
Arad Dunham.	

Voted:—That the yards of persons chosen Field Drivers shall be Town Pounds so long as they remain in office, provided they shall be chosen Pound Keepers.

Voted:—That the Town accept from the Trustees under the will of Thomas S. Pierce the sum of \$16,000.00 and appropriate the same for the purpose of converting the present gas plant of the Town into a water gas plant, constructing an eight inch main from said plant to a point near the intersection of Main and Center Streets and make the necessary connections with existing mains, said amount to be spent under the direction of a Committee consisting of Elisha T. Jenks, Carleton W. Maxim and Chester E. Weston.

Voted:—That the sum of \$50.00 be appropriated for the

expenses of the Lighting Committee and that the thanks of the voters be extended the Committee for their good work and report.

Voted—To adjourn.

Special Town Meeting July 31, 1911.

Meeting called to order by Moderator Howes at 7.30 o'clock p. m. and the following Warrant was read by the Clerk.

Plymouth ss.

To Harry W. Swift, or either of the constables of the Town of Middleborough.

Greeting:—

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn all the inhabitants of said town qualified to vote in town affairs, to meet at the Town Hall of said Town on Monday, July 31, 1911 at 7.30 o'clock p. m. to act on the following articles.

Article 1.—To see if the town will take necessary action to sell or dispose of its stock in the Plymouth and Middleboro Railroad Company, and will authorize its selectmen or other agents to take the necessary steps to effect such purpose.

Article 2.—To see what disposition the Town will make of the proceeds from the sale of the Plymouth and Middleboro Railroad Stock, and act anything thereon.

And you are further directed to serve this warrant by causing it to be printed in the Middleboro Gazette and the Middleboro News seven days at least before the time herein specified for said meeting. Hereof fail not and make return of this warrant, and of your doings thereon to the Town Clerk on or before the time of said meeting.

Given under our hands at Middleboro this nineteenth day of July A. D. 1911.

WILLIAM M. HASKINS,  
CORNELIUS H. LEONARD,  
CHARLES N. ATWOOD,

*Selectmen of Middleboro.*

---

Voted:—That the Town sell or dispose of all its shares of the capital stock of the Plymouth and Middleboro Railroad Company to or in the interests of the Old Colony Railroad

Company or the New York New Haven & Hartford Railroad Company upon terms which shall secure to the Town not less than \$76.00 in cash for each of its said shares and that the Selectmen be and hereby are authorized in the name and behalf of the Town to take all steps necessary, and in their judgment proper, to carry out and make effective the purposes of this vote, including the authority to vote upon all the shares of the Town, at any meeting of the stockholders of the Plymouth and Middleboro Railroad Company upon any question in connection with the sale or disposal of said shares.

Voted—That the Town Treasurer be empowered and authorized to use the proceeds of the sale of the Plymouth and Middleboro Railroad Company stock to retire as many as possible of the Plymouth and Middleboro Railroad Company notes issued against such stock at a price not to exceed \$102.50 and accrued interest.

Voted:—To adjourn.

#### ANNUAL ELECTION NOVEMBER 7, 1911.

The Election Officers in Precinct One were:—

Bert J. Allan, Warden  
 Edmund Pratt, Deputy Warden  
 Percy W. Keith, Clerk  
 Ernest I. Perkins, Deputy Clerk  
 Benjamin E. Holmes, Inspector  
 George F. Doyle, Inspector  
 Edward B. Whitmarsh, Deputy Inspector  
 Josiah T. Carver, Officer.

The Election Officers in Precinct Two were:

Henry W. Sears, Warden  
 Chester E. Weston, Clerk  
 William M. Haskins, Ballot Clerk  
 William J. Coughlin, Ballot Clerk  
 Charles M. Thatcher, Inspector  
 Michael J. Cronan, Deputy Clerk and Teller  
 Walter L. Beals, Teller  
 John J. Mahoney, Teller  
 Charles W. Kingman, Teller  
 Luke F. Callan, Teller  
 James F. Roberts, Officer.

W. W. BRACKETT,

*Town Auditor.*

## REPORT OF THE MUNICIPAL LIGHT PLANT FOR 1911

*To the Voters of the Town of Middleboro:-*

We are pleased to submit the following report, showing as it does, a marked improvement in the earnings of the Electric Plant.

Now that the Gas Plant has been rebuilt and that we have a modern up to date gas plant, we hope to make a much better showing on that side of the account the coming year. But to get the best results will require the extension of our gas mains.

One of the improvements the past year is the installation of all night service lighting on Station Street to accommodate the patrons of the midnight train.

The substitution of several incandescent street lights in place of one arc light has been tried in one or two cases and proved very satisfactory with a saving in cost to operate and maintain.

This policy may be further carried out.

Respectfully submitted,

HENRY W. SEARS,  
LYMAN P. THOMAS,  
W. H. F. PETTEE.

*Municipal Light Board,  
Town of Middleboro.*

## REPORT OF THE MANAGER OF THE MUNICIPAL LIGHT PLANT FOR 1911.

---

Messrs. Henry W. Sears, Chairman,  
Wilkes H. F. Pettee and Lyman P. Thomas,  
Municipal Light Board, Town of Middleboro.

Gentlemen:—I have the honor to present herewith the eighteenth annual report of the Municipal Light Plant for the year ending December 31, 1911.

This year, as in past years, the Electric and Gas departments will be treated separately.

The apparatus at the electric plant is in good condition, and the fact of there being no interruption of service during the year, is evidence that the new 150 K.W. generator installed was a move in the right direction, in the efforts to give satisfactory service for power.

The gas engines and gas producers continue to give satisfactory results both as to economy and reliability.

The water wheels are steadily decreasing in efficiency owing to the wear and corrosion, (some of the buckets all gone) and the time is near when in order to get any results whatever from our water power, it will be necessary to replace the wheels proper with a make other than those now installed, as the company making these wheels went out of existence some years ago, and it is now impossible to get even repair parts.

The steady increase in customers and demand for current, demonstrate that the public are each year realizing the increased benefits derived from using electricity for light and heating appliances, but more particularly from the use of electricity for power purposes.

The increase in customers in 1911 was 83, while in 1910 the increase was only 39.

In 1911 the electric sales increased \$3,317.53 over 1910, while those of 1910 over 1909 increased \$2,332.60, or in other words, the increase in sales in 1911 was 30 per cent greater than the increase in 1910 over 1909, which was an increase of 11 per cent over the previous year.

Much time and money has been expended this last year in the repairs of lines and wires to get them in the best possible condition, which has proved beneficial from the fact that we have not had a wire down caused by storms, except on the No. Middleboro circuit, and not a report of a tree burning for six months, which is a good showing when the large number of trees through which our lines run is considered.

One arc lamp has been removed and replaced by one incandescent of 200 C. P. and one of 80 C. P.

One arc has been removed and five incandescents substituted, in both cases giving better satisfaction than the arc lights.

In addition to these, twelve other incandescent lights of 32 C. P. have been installed upon petition to, and recommendation of the selectmen.

Forty Kilo-watt (800 lights) capacity of transformers were added to lines.

Seventy-two new electric meters were purchased and installed.

To again show that the electric department is a paying proposition, would state that the income from private consumers, plus the \$4,950.00 which was that part of the depreciation appropriation considered as value of street lights to town and should be considered as earnings of the plant, (inasmuch as, the cost of operating street lights was included in the expense side of manufacturing account) is \$2,980.39 more than the operating expense at station, depreciation on 4 per cent basis, and interest on both gas and electric department, and commissioners' salaries. Or, to assign to the electric department its proportionate part, the electric plant has earned the operating expenses, interest on outstanding Notes and Bonds, depreciation at 4 per cent basis, commissioners' salaries, and have a balance of \$4,345.65.

Last year an extra one percent was added to the depreciation fund for the purpose of extending the lines to Rock village, provided however, enough takers could be secured to warrant the outlay, fifteen takers being the minimum agreed upon at that time between Barden Hill and the end of the line at the Rock.

At that time considerable interest was manifested at the Rock.

Upon being requested by personal solicitation or by mail to sign and return a printed form agreeing to become a consumer of electricity for either-light or power, only one at

the Rock and three between Barden Hill and the Rock signed the form as requested.

It is the universal practise of all Public Service corporations to demand a signed application for a customers service, for either water, gas or electricity, [therefore, the manager felt justified in requesting a written agreement as noted above.

As it meant the expenditure of \$1,500.00, or more and for the expenditure of that amount as a business proposition, and in justice to the plant and the tax payers it was thought advisable to have something more tangible than a verbal "I guess I will take it", or "I may take it later on" as an inducement to extend the lines to the Rock.

Gas:—The town now has what it never had before, which is, a modern gas plant with facilities for a 24 hour reserve supply of gas. The gas making apparatus installed by the Peirce Trustees is the latest product of the Western Gas Construction Co. of Fort Wayne, Indiana, and has a rated capacity of 124,000 cubic feet of carburetted water gas per day of 24 hours, and the other appliances are modern and thoroughly up to date.

The new 50,000 ft. holder built by the Davis and Farnum Co. of Waltham gives ample capacity for future growth, besides being so constructed that any time in the future another lift may be added, making the capacity 100,000 cubic feet. The old purifying boxes used with the old method were retained and are being used with the present process, together with the old 10,000 ft. holder which is now used as a relief holder into which the gas goes as soon as made, and from there drawn out and forced through the purifying boxes.

The 3,200 feet of new eight inch main laid on Centre St. from the gas house to the intersection of Center and Main Sts. afford a distributing main of ample capacity, so that after the laying of mains on the streets leading off Centre, the plant will then be in condition to make the Balance to Profit and Loss show on the opposite side of the ledger from what it has in years past.

Applications for service for gas ranges have commenced to come in, but mostly from those where no gas main is laid.

A canvass having been made the past few weeks to ascertain who would become consumers of gas for ranges, that such streets showing the largest number of takers might be selected for immediate new mains, shows that about 70 per cent of those seen, express a desire to be given gas service

either for ranges or other gas consuming devices. Could enough mains be laid this coming spring, there would be no trouble in placing one hundred gas ranges and other devices.

The present price of gas which went into effect January 1st, 1912, namely \$1.75 to \$1.40 per M. brings the price where it can be used for cooking purposes by all, and compares favorably with towns of like size.

Believing that the sooner new mains are laid, the quicker the gas plant will begin to make a better showing, for the greater the consumption, the less it costs per thousand to manufacture, would recommend making the depreciation asked for 4 per cent, to enable the plant to devote a larger portion to new mains than could otherwise be done without overdrawing on that account.

Again I wish to take this opportunity of expressing to the Board my sincere thanks for the assistance given me and advice in the management of the affairs of the plant.

Also at this time to publicly acknowledge the courtesy extended to me by the Committee which had in charge the installing of the new gas plant and to thank them for accepting the few ideas advanced by me and the expression of confidence in my judgment in the matter.

Following is a detailed report pertaining to the finances of the Plant.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

TWENTY-SEVENTH IN THE SERIES.

Middleboro, Mass., Jan. 4, 1912.

*To the School Committee of Middleboro:*

In accordance with your regulations I present the following report:

Some of the important changes introduced during the past year for the betterment of the schools are here enumerated:

1. The employment of a supervisor of penmanship who visits each central school once in three weeks and holds monthly meetings with the suburban teachers for the direction of their work.

A good beginning has been made in this most important study and we look for good results as the work of the supervisor progresses.

2. The adoption of a schedule of salaries, in accordance with which teachers are paid according to the work required. Teachers in the schools on half-time plan and teachers in the central schools having more than one grade in a room have been given an increase in salary.

3. The introduction of the plan of grouping and consolidation of grades in many of the suburban schools whereby the work in these schools will be made more effective and the results secured more satisfactory by decreasing the number of daily recitations and giving more time for review work and instruction.

This promises to be the best plan for school betterment ever introduced into our rural schools. It is one of the encouraging features of recent educational progress that so much attention is being given to the betterment of the rural schools of our country. When statistics show us that nearly one-half of the school children of the United States are being trained in one-room schools we see that "The Rural School Problem" is nation-wide, and it is gratifying to note that it is receiving attention in every section of the country.

4. The raising of salaries of the suburban teachers who are now classified into three groups, according to the size of the school, each group having a minimum and maximum salary, thus insuring to these schools in the future an opportunity for securing more experienced teachers.

The action of the town in appropriating \$671.43 for an increase in the salary of the teachers in the larger suburban schools made it possible to arrange this plan. The teachers in the larger suburban schools now receive a higher compensation than many of the grade teachers in the central schools. The increase in efficiency in the suburban corps of teachers made possible by an increase in salaries will soon give a system of rural schools that the town may well be proud of.

5. The extension of the half-time plan to include all the first and second year pupils in the central schools.

This plan has worked out very satisfactorily and will have to be continued in the future even if a change should be demanded until such time as a new building will furnish more ample accommodations.

6. The abolition of the Teachers' Training Class, making it possible now to raise the standard of requirements for service as teachers in the suburban schools.

7. The raising of the standard of admission to the High School by not awarding certificates of graduation to pupils deficient in two studies.

Formerly all pupils having an average of over 70 per cent in their studies were granted such certificates, even if they fell below 70 per cent in two or more branches. In the central schools pupils in the upper grade are given each term examinations on the work of the grade prepared by the Superintendent.

8. The extension of work in English in the High School the first two years so as to give more periods to the study of literary productions and English composition. Spelling has also been added as a part of the work and is receiving the attention necessary to attain good results.

9. The adoption of a new plan for holding suburban teachers' meetings by dividing the teachers into three groups of five teachers each, and having bi-monthly meetings with each group in the Superintendent's office. This is proving to be the most helpful of any plan of meetings yet tried. It is interesting to note that the work of the suburban schools is being more closely supervised this year than ever before with the result that these schools are in a better condition than for many years. If the larger suburban schools could reduce

the number of grades and pupils by transferring the upper grades to the Central schools conditions for even better work in those schools would be possible. Under present conditions, however, this is not possible.

10. The formulating of plans for a separate course of study for the suburban schools which will more definitely meet their needs. Much time and investigation will be given to this plan and it believed when it is worked out that it will greatly benefit those schools. It is hoped to have it prepared for the Fall term. No efforts are being spared towards making our rural schools as good as possible for it is fully realized that upon the reputation of its rural schools will depend largely the building up of the rural districts of the town.

11. The adoption of regulations for the supervisors in special subjects in which are definitely stated the duties of each supervisor.

In consequence of this adoption a clearer conception of what is required of each supervisor is given to the teachers and more satisfactory conditions have resulted.

12. The conservation of the health of pupils by giving more frequent rest periods in the elementary schools by dividing the school year into four terms instead of three, in accordance with the plan suggested in the report of last year. The same plan will be followed the present year. An expression of appreciation is extended to all those who have endeavored to strengthen the work of the schools by arranging public entertainments to occur on such evenings as would least interfere with the physical condition of pupils attending such entertainments. The action of the School Board last year in giving an expression of opinion on this point was extremely timely and we feel that it resulted in emphasizing the importance of pupils keeping in good physical condition if they would secure the best results in their school work.

13. The regrading of the central elementary schools to conform to existing conditions in the school buildings. The classification of pupils in the several rooms depends on the number in the grades and as that varies each year scarcely any two consecutive years have the same arrangements. The plan of grading these schools next year will follow very closely the plan of the present year. The first year is now called the sub-primary with eight grades above for the remaining eight years.

14. The extension of the work in manual training one grade.

An account of this work is fully given in the report of the Supervisor of Manual Training.

Among the many suggestions which might be carried out for the betterment of our school equipment and school work the following are noted:

1. The heating of the hallways and the installation of a system of ventilation in the Union Street building.

2. The construction of vaults for the outbuildings of the suburban schools.

3. The substitution of coal furnaces for wood at the Pleasant Street and Plymouth Street buildings.

4. The extension of the granolithic walks at the School Street building.

5. The replacing of the ceilings in the two lower rooms of the West Side building with new plaster or metal ceilings. Already these ceilings have been patched many times and both appearance and safety demand new ceilings.

6. The extension of the duties of the School Physician so that his work may follow out what is intended by the law of the state in regard to the duties of the school physician.

7. The enrichment of the course in reading in the primary grades by supplying libraries of from 25 to 50 volumes for each school for the use of pupils in silent reading.

8. The extension of manual work at once so that sewing may be taught to the girls and sloyd to the boys in the upper grammar grades.

9. The giving of additional time to the work in manual arts by the supervisor, extending the same from three to four days each week.

10. The arranging for more direct supervision of drawing and constructive work in the suburban schools by the supervisor, allowing her to visit such schools a certain number of times each year for learning existing conditions.

11. The revision of course of study for the central schools giving more in detail the work required in the several studies.

12. The adoption of some regulation whereby when any suburban school falls below a certain membership with no certainty of any increase in the immediate future such school shall be closed and the pupils carried by team to the nearest school.

13. The adoption of a regulation whereby teachers who have served in the public schools with marked success for a period of three years may be placed on an honor list to serve at the pleasure of the committee.

14. The use of the school buildings in the suburban districts as social centers.

The revival of the use of rural school buildings for meetings where educational and social questions can be presented for discussion is becoming widespread. I believe the use of our rural school buildings for such purposes is in accord with the best educational thought of the day, and I would like to see how such a movement for school betterment in this enlisting of home influence would work out in the suburban districts of our town.

---

In connection with the work of the year it is pleasing to refer to the exercises held on Flag Day, June 14, at the West Side school on which occasion a flag was presented to the school by the E. W. Peirce Woman's Relief Corps.

In closing this report of the things done in the Middleboro schools the past year, together with suggestions for future improvement, we would assure the citizens of the town that it is our aim to so improve the schools that they may take rank with those in other progressive towns and to so direct the educational interests of the children committed to our care that they may gain an educational training which will fit them to do well their part in life.

Respectfully submitted,

CHARLES H. BATES,

*Superintendent of Schools.*

# **SPECIAL REPORTS**

**PRINCIPAL OF HIGH SCHOOL**

**SUPERVISOR OF MUSIC**

**SUPERVISOR OF DRAWING**

**SUPERVISOR OF MANUAL TRAINING**

**SUPERVISOR OF PENMANSHIP**

**TRUANT OFFICERS**

## REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

Mr. C. H. Bates, Superintendent of Schools:

Dear Sir:—I herewith submit a brief report of my twenty-second year as Principal of the Middleboro High School. I feel that the school has made a commendable record from the various view points of education. It is our constant aim to impress upon pupils the importance of punctuality in attendance, of courtesy toward teachers and schoolmates, of a correct appreciation of their educational privileges, of making their school work paramount to social activities, of concentration of mind and the exercise of will power for the promotion of sound scholarship, of systematic habits of study, of the consistent development, to a reasonable degree, of the several departments of the mind, of meeting difficulties with a determination to overcome them, of doing well some things that are distasteful to them, of strict honesty and integrity of purpose in dealing with their associates and with themselves, of promoting a democratic school spirit with justice to all as its cornerstone—in short, the importance of cultivating those habits that will insure them success in life after they have completed their scholastic education. The moral and intellectual habits formed during this plastic age are more potent factors to success than the concrete knowledge acquired.

There have been three resignations in our teaching force during the past year, Miss Grace C. Emerson, Miss Helen P. Wood, and Miss Ruth R. Hart. Miss Emerson was succeeded by Miss Esther E. Morse, Miss Wood by Miss Irena M. Crawford, and Miss Hart by Miss Susie W. Eastham.

The total enrollment for the fall term was 190; 95 girls and 95 boys. The total number of tuition pupils was 19. Of these 15 came from Lakeville, 2 from Plympton, 1 from Carver and 1 from Rochester. The number of pupils drawing transportation money was 48. The present senior class numbers 28; 16 boys and 12 girls.

During the past year renewals of the privilege of certification for three years have been granted our High School by the New England College Certificate Board and by the Worcester Polytechnic Institute.

The number of recitations in English has been increased from three to four per week during the first two years of the course. A weekly exercise in spelling is required of all the pupils. During the year it is our intention to have twenty minute talks before the school once in two weeks by some of our townsmen on subjects which are of special interest to students in Civics.

Graduates of our High School entered institutions of learning last fall as follows: Brown University, 1; Dartmouth, 4; Harvard, 1; Massachusetts Agricultural College, 1; Bridgewater State Normal School, 4; Hyannis State Normal School, 1; Bradford Durfee Textile School, 1; postgraduate course in the Middleboro High School, 6.

The annual graduating exercises were held in the town hall Friday evening, June 23. The class numbered 23.

Respectfully submitted,

WALTER SAMPSON,

*Principal of the High School.*

## REPORT OF THE SUPERVISOR OF MUSIC.

Middleboro, Dec. 30, 1911.

Mr. Charles H. Bates, Superintendent of Schools:

Dear Sir:—I think I can say in making this my annual report that the schools as a whole have never done such satisfactory work as at the present time. The teachers are interested and are working hard to carry out the work as outlined. The very best spirit prevails in all the schools. For the first time we have organized an orchestra, in the School Street building, with a membership of fourteen. We look for this little orchestra to be a great help to the High School later and to create interest in the lower grades. Even now their work is better than the High School orchestra of eight years ago. My schedule takes me to all of the Suburban Schools once in three weeks, to the upper grades (Central Schools) once in three weeks, to the High School every week, and some of the Primary grades three times each month where supervision is most needed. Our outline is a little nearer the mark, and as supplementary work we are telling stories to the Primary grades, and studying the lives of one of the great masters in the Grammar grades, giving to each child a fairly good understanding of nine of the best composers before entering the High School. Thanking the teachers, the School Board, and yourself for your hearty co-operation, I am

Very respectfully yours,

A. M. HOWARD,

*Supervisor of Music.*

## REPORT OF THE SUPERVISOR OF DRAWING.

Mr. Charles H. Bates, Superintendent of Schools:

Dear Sir:—The work in drawing continues very much the same as last year. An improvement is evident in the technique, especially in the mechanical drawing, due undoubtedly to the constructive or manual work, and the painting is better than it was before we had the new paints. These are supplied in all the grades of the centre schools above the second or third grade.

Last year work was placed on exhibition up stairs in the library and was changed three times during the year, the spring work remaining through the fall term this year.

Much more interest was shown and better work done by pupils in the middle and upper grades in mechanical or structural drawing this year, owing to the fact that their drawings were the working drawings for objects which they were to actually construct and have for their own to give away or keep as they pleased. Each child above the third grade was supplied with cardboard and paper or brass enough for one problem.

The object to be made was decided upon and a freehand working drawing made involving one, two or three views as seemed necessary to give full information about the object. The size, proportions and materials needed were planned by the children to meet the requirements of the object that it might be as useful and beautiful as possible. Then sketches were made of each piece of material required for its construction with the dimensions carefully put down, allowance being made for turning in edges and other constructive details. The stock was then cut out to the sizes the drawings called for and a design made to decorate the object. When all parts were ready they were put together.

It was found by the children that if they were to have a satisfactory result, great neatness and accuracy were absolutely necessary, also careful planning beforehand. This

work helps them to know and appreciate good form and proportion in the common objects about them and to value skilful workmanship. The children enjoy this part of the work and it makes the drier parts seem more worthwhile. Many of the children asked to buy material to take home and make more articles like those they had made in school. Some of the articles made were whisk-broom holders, scrap boxes, small and large blotter pads, stationery cases, brass letter and pencil trays.

Thanks are due to the School Board and to the Superintendent for their interest and generosity in supplying materials which make it possible to give a course that is broader, more practical and more interesting to the children. I also wish to express my appreciation of the hearty co-operation on the part of the teachers without which the work could not have been carried through so successfully.

Respectfully submitted,

MARY L. COOK.

*Supervisor of Drawing.*

## REPORT OF THE SUPERVISOR OF MANUAL TRAINING.

Mr. Charles H. Bates, Superintendent of Schools:

Dear Sir:—The subject of manual arts as it is taught in progressive schools now includes both drawing and manual or constructive work. “Art for Art’s sake” alone is not taught in the public schools, but rather art in its relation to every day life and the industrial activities going on about us.

As the manual work has now reached the fourth year in our schools and in the last two of these years has become a subject in itself, separate from, although closely correlated with the drawing, it seems best to report the two subjects separately.

Much of what we call manual work involves drawing, in fact there is very little in the constructive line which can be done without drawing. “It is not possible to acquire much technical skill in the public school, but the most valuable result to the child is that he is taught to observe things carefully and is also given some practise in making them.” His constructive ability and judgment are trained, his workmanship becomes more artistic, his work better executed, and a knowledge of and appreciation for good design and good workmanship is instilled in his mind, also a love for work is developed, work done the best that he is capable of doing it.

The general plan for the manual work in the first four years is as follows:—

Sub-primary. The work is necessarily very simple in this grade and consists of paper folding, cutting, and a little pasting in the construction of the simplest objects and doll’s furniture. A doll’s bed room was made and furnished with a bed, dressing table, chair, curtains and possibly a rug designed and made by the children. The use of the needle and thread is taught by stringing beads, berries, and straws or seeds, and later sewing a design on a card of stiff paper

which have the holes ready pricked. These cards were used for the tops of blotters, bookmarks, handkerchief cases, or frames for Christmas pictures. Weaving is begun using paper mats and weaving in strips of paper in different designs.

Grade 1. More difficult things are made this year in paper folding, ruling, cutting, a little measuring and pasting. Furniture for a living room or library was made and the wall paper, rugs, curtains, table covers and doilies were designed by the children. The sewing is done on stiff paper with silkatine, making the designs with stitches, and sewing the edges together. Such articles as clipping-cases, card-cases, stamp or court-plaster cases were made. In this grade the children draw the designs from dictation on squared paper and prick their own cards. The weaving is done on cardboard looms using twine for the warp and strips of cloth or jute for the weft, making holders, rugs for the doll's house, doll's hoods and muffs.

Grade 2. Similar but more difficult problems are given in paper construction, using a heavier paper, and measuring half inches. Furniture for a dining room was made. The sewing is carried another step in advance, the simplest stitches are taught as basting, running, stitching, overcasting. Thimbles, coarse needles and thread are used, and the sewing is done on checked gingham, the stitches made over certain squares as dictated. A sampler was made also holders or button-bags. Cardboard looms are used in weaving and rugs, school bags and doll's hammocks were made. Also twine-ball bags and doll's hammocks were made by knotting cords in some rooms.

Grade 3. The problems in construction will involve the use of compasses and measuring quarter inches, a still heavier paper or thin, folding bristol board will be used. This work and the weaving, which will consist of doll's sweaters, tam-o-shanter caps, circular mats and bags woven on cardboard looms made by the children will come in the winter and spring terms. So far only the sewing has been done in this grade. Coarse cloth as canvas or burlap with coarse needles and thread are used. The same stitches as those given in Grade 2 are taught, also the backstitch, cross-stitch blanket-stitch. A sampler was made, and simple articles of burlap as a mat or pincushion top, card-case or pencil-case. The children make their own designs and work them out in any stitch they have learned.

The work seems to be going well and both teachers and pupils are interested in it. As it is introduced into a new

grade each year it is neccessary to work the course out quite slowly, and by experiment we find that changes have to be made, some things are found to be too hard and must be put up a grade while other things prove to be so easy that they can be introduced earlier.

Respectfully submitted,

MARY L. COOK,

*Supervisor of Manual Training.*

## REPORT OF THE SUPERVISOR OF PENMANSHIP.

Middleboro, Mass., Jan. 1, 1912.

Mr. C. H. Bates, Superintendent of Schools:

Dear Sir:—Among the many experiments and changes of the past twenty years in the courses of study for the elementary schools, those in the subject of writing have been most marked and unsatisfactory.

From the "Spencerian" with its shadings and ornamental effects to the vertical system was a radical change. Experiment and trial showed that this method of writing, while it increased legibility, destroyed individuality, decreased the speed, and failed to meet the requirements of the business world. More experimentation followed until the teacher was lost in the mazes. As a result of all this change the medial system has been found most nearly to answer the demands of the present day, both as to individuality and rapidity.

The so-called arm movement is but the natural method of writing,—the use of the arm as a whole supplemented by the special muscles. The business college has long recognized this and has secured creditable results where the common schools have failed. These results come from a two-fold influence, personal supervision as to form, position, etc., and to the assiduous practice required of its pupils.

Our public schools *can* and *should* get results along the line of writing commensurate with those obtained in other branches, as number work, etc. To do this it is necessary that each year should show some substantial gain, and that the completion of the school work below the high school should result in pupils who can and *do* write a neat, swift, and creditable hand.

To attain this end my position was created and I am glad to say that I have had the hearty co-operation of the teachers in the work thus far. They have been most prompt in their response, but the co-operation of the parents is needed to

encourage the individual scholar to follow the system in his home work and in all his writing. If the pupil does this the system comes to be the natural way for him and the best results can be obtained.

The work in the schools is beginning to show results and the method is already justifying itself in the minds of the pupils, as it is bound to do if faithfully practiced.

Respectfully submitted,

WM. A. HARTHORNE,

*Supervisor of Penmanship.*

## REPORT OF THE TRUANT OFFICERS.

Middleboro, Mass., Dec. 31, 1911.

Mr. Charles H. Bates, Superintendent of Schools:

Dear Sir:—I herewith present my report for the year 1911.

Number of cases investigated	18
Number of cases of truancy	0
Number of cases prosecuted	0
Number of convictions	0
Number on probation	0

Yours respectfully,

EVERETT T. LINCOLN,

*Truant Officer.*

Middleboro, Mass., Dec. 25, 1911.

Mr. Charles H. Bates, Superintendent of Schools:

Dear Sir:—I herewith submit my report as Truant Officer for the year ending December 1911.

Number of cases investigated	45
Number of cases of truancy	3
Number of cases prosecuted	2
Number of cases of conviction	2
Number of cases on Probation	0
Sentence suspended	2

Ten of the cases investigated were in the suburban schools.

Yours respectfully,

S. S. LOVELL,

*Truant Officer.*

## ABSTRACT OF STATISTICS.

## VALUATION.

Assessed valuation of the town	\$4,890,866 00
Approximate value of school houses and lots	100,000 00
Approximate value of other school property	8,500 00

## COST OF SCHOOLS.

Amount available for school purposes	\$39,108 31
Total cost of schools for the year	38,175 09
Ordinary expenses	37,123 03
Percentage of assessed valuation expended for the schools	.0078
Average cost per pupil based on average membership	28.96

## POPULATION.

Population of the town, 1910(U. S. Census)	8,234
--	-------

## CENSUS REPORT.

MERTON LORING BRALEY.

SINGING OF CLASS ODE  
Written by GLADYS MAE ELLIOTT

PRESENTATION OF DIPLOMAS  
WILLIAM A. ANDREWS, Chairman of School Committee.

BENEDICTION

## CLASS ODE.

(Tune of the Old Oaken Bucket)

Our school days are o'er, and we now leave forever  
 The scenes of our youth that we once held so dear.  
 Good friends we have been, and have worked hard together,  
 And now say "Farewell" with the best of good cheer.  
 Our pathway was bright and few clouds hovered o'er it,  
 We worked and we played with a will ne'er outdone;  
 And a day ne'er went by that, though dull was the weather,  
 We all did not fill with work, pleasure and fun.

*Chorus:* The old M. H. S.  
 With its work and its pleasure,  
 Oh, long in our hearts  
 May thy mem'ry keep green.

We ne'er can forget with what kindness and patience  
 Our teachers have helped us to run the long race.  
 No doubt we did try them and cause some displeasure,  
 But they were the ones who made steady our pace.  
 Now let us forget all our trifling vexations  
 And keep in our mem'ry their friendship so true;  
 And in years to come, when life's burdens are heavy,  
 We'll hold our own dear "Alma Mater" in view.

As we look to the years that do now lie before us,  
 And in fancy we picture our fields of success,  
 The trials we thought so severe in our childhood  
 Soon fade in the distance and grow less and less.  
 Then with courage undaunted we take the step forward,  
 Resolved that with very best purpose we'll try.  
 May success crown our efforts, if we are but patient,  
 Let's take for our motto, "To do or to die."

## CORPS OF TEACHERS.

Principal: Walter Sampson.

Leonard O. Tillson	William A. Harthorne	Jennie G. Allen
Ruth R. Hart	Edith H. Rand	Esther E. Morse
	Irena M. Crawford	

Instructor in Music: Austin M. Howard  
 Instructor in Drawing: Mary L. Cook

## CLASS OF 1911.

## CLASSICAL COURSE.

Elmer Gorman Allan

## ENGLISH-LATIN COURSE.

Helen Miriam Braley	Dorothy Elizabeth Snow
Merton Loring Braley	Lillian Sanford Stenhouse
Gladys Mae Elliott	Marion Hallett Thomas
Harold White Gibbs	Annie Howe Wilbur
Lester Forrest Morse	Margaret Osgood Wood

## ENGLISH COURSE.

Helen Nickeline Anderson	William Alfred Lang
Timothy Edwin Anderson	Mertie Elizabeth Philbrook
Edward Antony Begley	Edward Albert Ramsey
Caroline Stanton Buck	Lysander Richmond
Verna Louise Francis	Waldo Shurtleff Thomas
Caroline Lois Jones	Helen Elizabeth Tinkham

## TEACHERS' TRAINING CLASS.

## NAMES OF PUPILS 1910-1911.

Annie H. Andrews, Graduate of Middleboro High School.  
 Marian F. Dunham, Graduate of Middleboro High School.  
 Katherine G. Hayden, Graduate of Middleboro High School.  
 Agnes M. Fenno, Graduate of Middleboro High School.  
 Mary O'Hara, Graduate of Middleboro High School.  
 Daisy E. Stenhouse, Graduate of Greenwich Academy.  
 Marion W. Tucker, Graduate of Bridgewater High School.

All of the foregoing named persons were granted certificates of graduation.

## CHANGES OF TEACHERS.

January 1, 1911 to January 1, 1912.

## ARTICLES IN THE WARRANT FOR THE ANNUAL TOWN MEETING.

To be held in the Town Hall, Monday, March 4, 1912.

---

Article 1. To choose all necessary town officers, the following officers to be voted for on one ballot, viz: One moderator for one year, one town clerk for three years, one treasurer, one collector of taxes, eight constables, three fish wardens, one auditor, three fence viewers, one tree warden, all for one year each, one selectman, one assessor, one overseer of the poor, three trustees of the Public Library, two members of the School Board, one member of the Board of Health, and one member of the Municipal Light Board, all for three years.

The polls for the election of these officers will be open at half past eleven o'clock A. M. and will not be closed before half past three o'clock P. M.

Article 2. To vote by ballot "Yes" or "No", in answer to the question "Shall license be granted for the sale of intoxicating liquors in this town?"

Article 3. To raise such sums of money, by tax or otherwise, as may be necessary to defray the expenses of the town, for the current year, appropriate the same, and to act anything in relation to the assessment and collection of taxes for the year.

Article 4. To authorize the Town Treasurer, with the approval of the Selectmen, or a majority thereof, to borrow during the municipal year, beginning March 4, 1912 in anticipation of the collection of taxes of said year such sums of money as may be necessary for the current expenses of the town, but not exceeding the total tax levy for said year, giving the notes of the town therefor, payable within one year from the dates thereof. All debts incurred under authority of this vote shall be paid from the taxes of the present municipal year.

Article 5. To hear the report of any committees or officers of the town, to appoint any committees, and act thereon.

Article 6. To allow accounts against the town and act thereon.

Article 7. To see if the town will vote that the yards of persons chosen Field Drivers shall be town pounds as long as they remain in office, provided they shall be chosen pound keepers.

Article 8. To dispose of the money received for dog licenses, and other licenses, the present year, and act thereon.

Article 9. To see if the town will pay the expenses of one or more night officers in the village and act thereon.

Article 10. To see if the town will appropriate any money to be expended by Post 8, G. A. R., on Memorial Day, and act thereon.

Article 11. To see what action the town will take in relation to sprinkling the streets, and act thereon.

Article 12. To see what action the town will take in relation to concrete or other sidewalks, appropriate any sum of money for the same, and act thereon.

Article 13. To appoint a committee on appropriations and act thereon.

Article 14. To see if the town will vote to authorize the selectmen to institute, defend, or compromise suits for or against the town during the ensuing year, and act thereon.

Article 15. To see if the town will elect a committee for the suppression of crime, appropriate money for the same, and act thereon.

Article 16. To see if the town will vote to consider a change in the condition or location of the lockup, appropriate money for the same, and act anything thereon.

Article 17. To see if the town will vote to pay an amount other than 20 cents per hour for fighting forest fires.

Article 18. To see what action the town will take in regard to the Salary of the Board of Overseers of the Poor and Board of Health, and act anything thereon.

Article 19. To see what action the town will take with reference to establishing a hospital for contagious diseases, and act anything thereon.

Article 20. To see if the town will vote to authorize the School Committee to construct concrete vaults in all the outhouses of the suburban schools, appropriate money for the same, and act thereon.

Article 21. To see if the town will appropriate money for Band Concerts the coming season, and act anything thereon.
